

Domains & Kingdoms

Name (s): _____ Period: _____

Step 1: Create a 6 Kingdoms 'CROWN' graphic organizer that you can use to easily compare each kingdom and demonstrate your understanding of all 6 Kingdoms.

Use the 6 Kingdoms of Life library guide to define the following vocabulary on the inside of your CROWN 

Prokaryote		Eukaryote	
Autotroph		Heterotroph	
Unicellular		Multicellular	
Producer		Consumer	
Vertebrates		Invertebrates	
Gymnosperms		Angiosperms	

Step 2: Classify the Six Kingdoms into the following three domains: Bacteria, Archaea, or Eukarya

Domain	Bacteria Domain	Archaea Domain	Eukarya Domain
Kingdom			
Archaeobacterial			
Eubacteria			
Protista			
Fungi			
Plantae			
Animalia			

Step 3: Use the 6 Kingdoms of Life library guide to gather and organize information and then

add your information to the outside of your crown

*****Include all of the vocabulary above; include 2-3 examples of organisms in each kingdom; include cell structure, body structure, modes of nutrition, and additional characteristics*****
