

Project Rubric Part 1

Note: The Unit 6 Finance Portfolio (parts 1 & 2) will be graded out of 200 total points and will count as the Unit 6 test grade AND as half of your final exam grade.

	DUE DATE	Maximum points possible = highest quality of work	√	Comments	Points
Step 1: Income Research 6.1	3-31	20 – Complete the Income Research table for the THREE jobs described in the instructions. Include income calculations, withholding details and calculations, and final Monthly Take Home Income.			
Step 2: Budget Check 6.1	3-31	20 – Use the website provided to make a budget based on the THREE monthly take home pay calculations made in Step 1.			
Step 3: Reality Check 6.1	3-31	20 - Complete the reality check using JumpStart.org along with a ONE PARAGRAPH SUMMARY of your findings. In this paragraph, compare and contrast the three salaries with the budget that was generated from reality check.			
Step 4: One-time Investment 6.2 - 6.5	3-31	20 - Research an investment option and determine how much money you would have at the end of your investment.			
Step 5: Vacation Investment 6.2 – 6.5	3-31	20 - Research vacation cost Complete the two TVM Solver tables based on the total cost of your dream vacation.			
				Part 1 PROJECT GRADE TOTAL out of 100 points	

Income research from salary.com: Your task is to complete a table just like the one you did in SAS 6:1 for Kafi. In this activity, you will choose three different jobs/salaries which you may find online at salary.com using the “income level” search option.

- For job #1, assume you will work 40 hours a week in an **ENTRY LEVEL** position.
- For job #2, you select a career that requires some work experience and/or some prerequisite training or education.
- For job #3, you will choose your dream job AFTER obtaining a **4-year** college degree.
